Dear Sirs:-

In response to your request I am sending herewith Library of Congress cards for the volumes concerning which you ask. I am also sending a card of our Catalogue of the International Exhibition of Contemporary Medals. You probably have them listed, but in case this is not so we should appreciate it if you would include them in the next issue of your United States catalogue. I am also sending, under separate cover, a copy of our historical sketch which gives a list of the publications of our Society. You may find additional material there unlisted by you..

Yours very truly,

Secretary.

Gentlemen:

The H. W. Wilson Company is preparing a Fine Arts Section for the Standard Catalog Series. It will be a classified, annotated list of the 1200 best books for the average public, college or university library, to be used as a buying list and reference tool all over the United States. The list will be chosen from about 2000 titles by the vote of librarians and specialists.

In preparing our long list for votes, we have been searching for authoritative and inexpensive books on numismatics. We have come across some of your publications in the series "Numismatic notes and monographs", and we would like very much to see a complete list of all your publications in print, with prices. Can you send us such a list at an early date?

Please address to the Editor, Standard Catalog Series.

Gentlemen: Attention Editor, Standard Catalog Series

Responding to your letter of April 16th, I am pleased to enclose herewith a list of the titles in our series of "Bibliographic Notes and Monographs." We shall be glad if you find any of these worthy of including in your list. At the same time I feel that I should make clear that some three or four of these titles are published each year and are sent to our Society's members as return for their dues (\$5.00 annually). I think as a rule the total cost of them has exceeded that amount and, therefore, we urge libraries to enroll as Associate members of our organization as the more economical procedure under the circumstances.

I don't quite see how you can embody this information in your statement of prices but, perhaps, you will be able to do so.

Very truly yours,

Secretary

Dear Sirs:

Referring to your inquiry enclosed, our set of this periodical consists of volumes 1 to 11. The last volume bears the date of 1892, during which year it was issued quarterly. The pagination is consecutive for the year. In the catalogue of the library of the society publishing this bulletin issued in 1897, the publication is listed as follows:-

Bulletin de la Societe suisse de numismatique.
T.I--XI. Fribourg, Bale, Geneve, 1882-92, 11 vol.
in-8 avec nombr. pl. et fig. dans le texte.

This should be conclusive evidence that the publications ceased in that year.

My dear Mr. Noe:

Last spring when the H. W. Wilson Company began work on the Fine Arts Section of the Standard Catalog for Public Libraries, you were kind enough to give us information about your publications, which we shall use. We have now come to the point of making the final selection of titles for inclusion, and Miss Sears, Editor of the Standard Catalog, has asked me to write to you.

As I think she told you in an earlier letter, the Fine Arts Section will be an annotated list of 1200 titles on all the arts, recommended and approved by a number of librarians and specialists. It will serve as a buying list for public libraries, and considers especially the library of average income where purchases cannot be made recklessly.

It happens that we can include only four or five books on numismatics, and so we must be sure that we are choosing the best. Miss Sears wonders if you will let me come to your office and show you our list of titles. Or if you feel that there is someone else in your organization who knows better what sort of books will be needed in the libraries, I'd like to see that person. You understand, we are not looking for the expensive, monumental works for the specialist, but for books for amateurs, of reasonable price, yet sound and reliable.

If possible, I'd like to see you on Tuesday or Wednesday, November 29th or 30th, at any hour that is convenient for you. Could you have someone telephone me at Jerome 0262?

Dear Sirs:

We are enclosing slips which are representative of those of your publications which we shall probably include either in main entries or in notes in the History and Travel Section of the Standard Catalog for Public Libraries.

Will you please check them over to see that the information as to price and edition which we have is correct? Author and title will be given according to the title page of the book, not as here noted. If any changes are necessary in the price or edition, please make them right on the slip.

If a later edition than the one we have noted has been published we shall be grateful if you will note that fact on the slip and if you will send us an editorial copy of the latest edition that we may make any necessary changes in descriptive notes and comparisons. We are not interested in reprints which do not change the subject matter or make-up of the book.

If any are out of print, please indicate that fact and tell us whether or not you expect to reprint and how soon. If you have transferred any books to another publisher please tell us to whom.

As incorrect information in our Catalog will inconvenience both libraries and publishers an accurate and careful report will be greatly appreciated.

We have not included any 1928 books as we feel sure that our information on recent books is accurate, nor have we included any of your older books of which you have recently indicated the price.

We shall be grateful if you will return these slips to us at your earliest convenience.

My dear Mr. Noe:

Not having had any reply to our letters to you regarding the Supplement to the Union List of Serials and your possible cooperation in it, we are wondering what the situation is. It has been necessary for us to extend the date on which we can receive additions for the first quarterly issue of the Supplement. We can accept copy for the letter A as late as February 10th, the letter B to follow within ten days and the letter C by the first of March.

Kindly send your record of holdings on ordinary size cards with library symbol stamped on every card.

If it is not possible for you to cooperate in the first quarterly section, may we depend upon you for the second section covering letters D-L for which copy should be received by March 31st?

In any case we shall appreciate it very much if you will let us know what the situation is and what we may expect from you.

Gentlemen:

Your circular letter regarding the Union List of Serials, has been sent to me mistakenly, because after correspondence with you, it seemed wisest that we send you a list of our serial files, most of which are unlikely to be duplicated in many libraries. Evidently you have lost sight of the fact that this has already been done, but you may check this by consulting your section A - Z to find if there are not entries of numismatic serials in the list.

Secretary.

Dear Sir:

From your letter of January 28 it is not quite clear to us whether you mean the original list or the Supplement now in preparation. If you mean the Provisional edition, section A-C, then you are right, your library is listed. But we are getting out a Supplement in sections as follows: A-C, D-L, M-R and S-Z, and for the first section we have had no additions or corrections from your library. Several letters were sent you, but we regret to say that no answer was received and this is the first letter we have from you.

If your holdings have been brought up-to-date and new titles added to your files, we should very much like to list them in the first quarterly issue of the Supplement. We shall appreciate to have your records on cards of ordinary size with your library symbol stamped on every card followed by your holdings. If your holdings remain unchanged since 1925, kindly let us know and we shall make a note on our list.

Advisory Committee Appointed by

December 5, 1930

To the Librarian:

The 1931 Supplement, as already announced in the third section of the Supplement to the Union List of Serials will not be issued in quarterly sections as planned earlier, but in a bound volume, cumulating the four sections of 1930 with all IMPORTANT changes and additions reported by the co-operating libraries. It is hoped that this volume will be ready for delivery during the summer of 1931.

In order that the work of compiling may progress to everybody's advantage, libraries are asked to submit their changes and additions, if any, in checking copies (see "Explanations" to section D-L, June 1930) or on cards. These should be sent in NOT LATER than indicated:

A - C due January 31, 1931
D - L " February 28, 1931
M - R " March 31, 1931
S - Z " April 30, 1931

In connection with the revision it becomes feasible to stress certain points.

Libraries are urgently requested to follow the Union List style of entering publications of societies, academies, etc. We have a large file of such scattered material which will be now entered in the 1931 Supplement.

To see that the material is within the scope of the list. Our file of rejected titles includes directories, railway time-tables, catalogs of high schools, not speaking of documents, student publications, etc., etc.

It would be a great help for everyone concerned, if libraries would check their titles and holdings against the Union List and the Supplements before sending in their material. This would eliminate a great deal of unnecessary correspondence.

Under a title which appears as current in the main volume and has been changed to a closed one in the Supplement only new or changed holdings will be entered. It is ob-

vious that if a library had 3+ in the main volume, they hold 3- x whatever the last number is.

Not to send any holdings under cross references. Check your titles against Union List first to find out where the holdings in the Supplements will be listed.

If libraries send in a second card to correct one already sent they should write on that card "to supersede former record" so the editorial office will be able to tell which is the later record.

Not to report any holdings for titles which bear the note: "Complete sets generally found in large libraries."

Libraries should report their revised and complete holdings as they wish them entered in the 1931 Supplement and not merely additions.

If your checking should change the entry, i.e. you report more volumes than given in the entry, please add exact date to the last volume number.

For new titles it is most necessary to add all available data: place of publication, date of first or last volume using the symbols +, +?, // or //?. Much correspondence can be avoided by giving these details in the first place. Use brackets to inclose your broken volumes.

Libraries are requested to return queries promptly. A few have turned them in when the section had been out for months, and some have not returned them at all. We wish to thank those who have so fully and promptly answered our questions for added information.

Libraries should not send their material on sheets, but on standard size cards with library symbol on every card.

In case a cooperating library has no important changes to make, it would help the editorial office to have a memorandum or note saying that no changes will follow. Please send this note in before the checking is due.

(i.e. not on list in main volume)
New libraries which would like to be included in the 1931 Supplement and which have important holdings to report, should follow the above schedule and instructions. The charge is 5 cents per title. Only unusual titles or holdings should be reported, such which are not yet found in any other library in that section of the country.

Very truly yours,

H. M. Lydenberg, Chairman,

A. E. Bostwick,

Gentlemen:

May I ask for information regarding the Co-operative Clearing House for periodicals established by your Company? If there is a catalogue of such periodicals available, would it be possible for me to borrow a copy for a limited time? We have a number of duplicates in our file of numismatic periodicals and it seems that the scheme which I understand you have been perfecting might provide a mutual benefit.

With appreciation of past favours, I remain,

Very sincerely yours,
